Clark Forklift

Clark Forklift Forklift Training - At this time, there are no less than 350,000 Clark forklifts performing globally, and more than 250,000 in use in North America alone. With five main lines across the world, Clark is proud to be one of the most expansive organizations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, duel fuel, gasoline, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 distinctive models of lift trucks, with components covering more than 120,000 specific items for all of its automated equipment. Your local Clark Seller is your total source for availability of all your components needs provided by Clark Totalift.

Clark's phenomenal Parts Distribution Facilities are conveniently situated in Louisville, Kentucky, which serves both their customers and sellers in North America, and Changwon, South Korea, which handles their Asian sellers and consumers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing producers. Driven to supply the highest level of value and service to our clients, Clark remains on the cutting edge when it comes to improving efficiency and benefiting performance.

Clark Totalift has a really impressive worldwide support network. With over 550 locations worldwide, seller representation in over 80 nations and 230 locations in North America, their high level of commitment to their clients predominates the material handling market.

Clark proudly remains an progressive leader of the industrial equipment industry, revolutionizing safety features such as the worker restraint system. This exceptional commitment to safety is at this time a customary feature on every lift truck.

Clark's recurrent goal to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck producer across the globe to be certified with the internationally approved quality standard ISO 9001 for each and every one of their production plants. Also, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be ready for any environmental restrictions, thus placing them in a prevailing industry position.

Lean Production

Clark has selected the extremely economical and advantageous structure of "Lean Production" for its assembly facilities and use of resources. This structure was developed to acknowledge the most effective method of manufacturing plant management and ensuring maximum efficiency. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

Engine Design

Clark's product engineers and suppliers communicate together to perfect the efficiency and brilliance of their merchandise while minimizing costs. The new value engineering program combines progressive product growth and delivers improved customer support and service within the industry.
