### Forklift Training Tips

The following checklist is essential for whichever workplace which has lift trucks on the premises. Each of these questions should be answered with "yes" if all the safety rules and regulations are being followed. A "no" to whatever question indicates a procedural flaw that might result in damage to machinery, accident or injury.

- 1) Is the traffic of the pedestrians separate from the operating area of the forklift?
- 2) Is pedestrian access to forklift travel areas restricted by barriers?
- 3) Are pedestrian walkways well marked and provided?
- 4) A sign is clearly visible stating a "lift truck in operation"?
- 5) Are mirrors for pedestrians and drivers provided at blind spots?
- 6) Are alterations to daily forklift schedules communicated to all affected employees?
- 7) The lift truck tires being utilized are suitable for all operating surfaces?
- 8) Lift truck seatbelt is being used?
- 9) Is the seat in good condition?
- 10) Is a regular forklift maintenance schedule adhered to?
- 11) Is an annual forklift certification and inspection done?
- 12) Is the forklift right for the required job?
- 13) Is there a load chart that is readable on the forklift?
- 14) Can the operators understand and read the load chart?
- 15) Does the chart list the safe capacity for different attachments and uses?
- 16) Do the forklift warning devices work correctly?
- 17) Is the operating speed control device fitted properly?
- 18) Is overhead cage fitted properly on the forklift?
- 19) Have all forklift operators acquired certification?
- 20) Are warning signs and speed limits being observed?
- 21) Are forklift operators up to date on training for all kinds of forklifts being operated?
- 22) Do operators understand their responsibilities to report any equipment damage and lift truck incidents?
- 23) Prior to the equipment being utilized, the pre-test checklist is being reviewed each and every day?
